

Langhammer Layer Palletizer PA 15

Up
to 150 kg
per
layer

A variety of infeeds and gripper systems make it possible to palletize almost any product. Due to their quick changeover times for different formats our palletizers are especially suited for handling high volumes and diverse packaging formats.

Be it the stand-alone version or integrated in a palletizing center – high availability and a strong reliability in performance are the core characteristics of Körber machines.

The Langhammer Layer Palletizer PA 15 offers flexible motion sequences and a gentle and careful handling of sensitive products. Through its compatibility with a variety of infeeds like the Infeed Station ZF 72, it is able to palletize almost any product.

Features and benefits

- **Floor-level-palletizing for maximum flexibility**
- **Modular design ensures future scalability**
- **Advanced grouping system offers high flexible layer formations**
- **Gentle product palletizing through conveying instead of pushing**

Load capacity

Layer weight up to 150 kg

Pallet height

2000 mm / 2400 mm / 2800 mm

Cycle capacity

4 - 10 layers / minute

Optimized footprint

Smaller footprint and minimum control cabinet size

Four-sided compression

Precisely aligned layer formation

Open control system

For either Siemens or Rockwell
